

NIRO-S eco #1045

The NIRO-S eco #1045 combines sustainability with high functionality and modern wearing comfort. The liner is made from 100% recycled yarn and features an odor-inhibiting hygienic treatment. The full touchscreen functionality allows digital devices to be operated without removing the gloves. The particularly fine, sandy nitrile coating provides excellent grip and high abrasion resistance – even in wet conditions.

Category	Assembling
Coating	Sandy nitrile foam
Coating details	palm coated
Main material	Polyester 13 Gauge
Colour	green
Special characteristics	100% recycled yarn, Touchscreen?enabled
Packaging unit	12 pairs / 144 pairs in a carton
Sizes	6, 7, 8, 9, 10, 11

AREAS OF USAGE

- Automotive industry
- Craft
- Gardening and landscaping
- Manufacturing systems engineering
- Warehousing and logistics

CHARACTERISTICS

- abrasion-proof / durable
- finger movability
- maximum grip
- sensitive
- touchscreen compatible
