

Double dipped glove with sandy latex coating for extra grip in wet conditions. Fully coated for full protection against water, oil and dirt. The high elasticity of the latex coating ensures a comfortable fit and relaxed working. The glove is waterproof, grip and abrasion resistant and is used in many different areas and industries.

Category	Assembling
Coating	Sandy latex foam
Coating details	fully dipped
Main material	Nylon 13 Gauge
Colour	blue / black
Special characteristics	liquid tight
Packaging unit	12 pairs / 144 pairs in carton
Sizes	6, 7, 8, 9, 10, 11

AREAS OF USAGE

- Automotive industry
- Building industry
- Gardening and landscaping
- Manufacturing systems engineering
- Recycling

CHARACTERISTICS

- abrasion-proof / durable
- flexible fit
- liquid-tight
- maximum grip
- oil-repellent
