Cut protection glove level D / 18 gauge / PU coating: This glove offers a high level of protection against cuts in accordance with the EN 388 standard. Thanks to the 18 gauge knit fabric, the glove is exceptionally thin, fine and light. Equipped with a breathable and non-slip PU coating, the glove offers good grip for precision work that requires dexterity with a simultaneous requirement for high c...

Category	Cut protection 5/D
Coating	Polyurethane (PU)
Coating details	palm coated
Main material	HPPE - 18 Gauge
Colour	greying / black
Special characteristics	very thin - 18 Gauge
Packaging unit	12 pairs / 144 pairs per carton
Sizes	6, 7, 8, 9, 10, 11

AREAS OF USAGE

- Automotive industry
- Paper and cellulose industry
- Manufacturing systems engineering
- metal processing

CHARACTERISTICS

- maximum grip
- finger movability
- light
- breathable
- cut resistant
- touchscreen compatible
